

The South Lawn Medical Practice News

July 2018

Summer Holidays

If you are lucky enough to be travelling in the near future, please make sure you allow enough time to be booked in for any travel vaccinations recommended for the area you are visiting. Some vaccinations require a course of injections to be given over several weeks.

If you book a last minute holiday then a pharmacy may be able to help with vaccinations at short notice if the Practice Nurses are full

Please ask at the reception desk if you would like details of travel clinics who may be able to offer last-minute appointments.

Children's Corner

Unfortunately we cannot provide soft toys, building blocks or moving toys for you to play with.

These could pass germs from poorly patients to other patients, or cause other people in the waiting room to trip and fall.

We are pleased to have provided a play house for our younger visitors to enjoy whilst waiting to see the Doctor.

Text reminders

You can now register to receive information by text message on your phone.

We are offering appointments reminders, and also the GPs may notify you of the results of any tests you have at the Practice.

If you wish to opt in for this reminder service please let the staff or your GP know that you are happy to receive information via SMS text message, and we can amend your record accordingly.

Please note it is your responsibility to keep the Practice informed of any changes to your personal details, to ensure we hold the correct mobile telephone contact details for you.

Please be aware that whilst the team will try to accommodate your requests, it is not usually possible to be seen without a prior appointment so please contact us before turning up at reception so we can do our best to help you.

Also please be aware that if you miss your allocated appointment time, the doctor or nurse may not be able to see you so you may be asked to rebook for another time.

Why not visit us online? www.slmp.co.uk

We've been updating our website — including videos about visiting the Practice, using your inhaler and nasal spray correctly—plus where to access leaflets and resources in an easy to read format. Do visit the site and look for the changes !

If you use our online services to order medicine or book appointments, you can now use an app to view access your account via your smart phone.

Details about the app are available online — search for "SystemOnline—the patient health management app" . Or follow the link on our website.
